The biography of Kirsten Flagstad, *The Voice of the Century*, is a story of triumph and tragedy. The shy and stubborn Norwegian singer who became world famous overnight, cultivated in the United States as the world's greatest voice and in Europe for her vocal art, Flagstad rescued the New York Metropolitan from bankruptcy in the 1930s and revitalized interest in Richard Wagner's operas in the United States. In music history, she is considered one of the foremost Wagner interpreters ever. She was also a big draw at Covent Garden in London, at the festivals in Zurich and at La Scala in Milan. During and after the war, she was unjustly accused of having had Nazi sympathies, of singing to Hitler and of profiting greatly from the war. These rumors are traced to leading officials in the Norwegian Foreign Ministry. A campaign was launched against her, resulting in major demonstrations around her performances in the United States. Her fortune was seized and she had to live under police protection.

On Saturday 26 June 1943, Hitler granted audience to the Norwegian author Knut Hamsun. The meeting started jovially, but ended in disaster. This is the first time this spectacular event in European cultural history has been used as the basis for an entire book. The book explores the trappings of literary genius and authority, as well as the uses of culture in Nazi Germany. The book's main narrative, the seven-day journey to and from the meeting, ends with an epilogue which includes Hamsun's obituary for Hitler, published on 7 May 1945. After a teaser which takes the reader straight into the journey, the book – in order to establish the premises of what took place – considers a few episodes from Hamsun's life up until 1943.
