

Anne Sverdrup-Thygeson

Beetles, bugs and butterflies (Insektenes hemmeligheter)

Non-fiction | Kagge Forlag | 2019 | 124 pages

Discover the world of insects! In this book, you will find stories about insects in many different countries: underwater in lakes and streams, in forests, in your garden and in your house. Insects and creepy-crawlies are cool, gross and sometimes bothersome, but most of all they're super useful to us humans – and we wouldn't last long without them.

This book was written by Anne Sverdrup-Thygeson with illustrations by Nina Marie Andersen. Anne is an insectologist and also the author of *Terra Insecta* for adults, which has been nominated for the Brage Prize, translated into twenty four languages and become an international bestseller.

The Boy Book. Your Guide to Puberty (Gutteboka. Din guide til puberteten)

Non-Fiction | Aschehoug Forlag | 2021 | 266 pages

Most boys have questions about puberty, the most dramatic transformation they'll ever experience – yet it's also the most normal thing in the world. The authors have answered thousands of them, in sex education classes and at the doctor's office: When will I get a beard? Is my penis normal? How do I find happiness again after a heartbreak? How do people have sex? Brochmann and Dahl have written *The Boy Book* to give boys answers they can rely on, a guide to help them on their way to adulthood.

Tinashe Williamson

Handbook for Young Antiracists (Håndbok for unge antirasister)

Non-Fiction | Cappelen Damm | 2021 | 72 pages

Handbook for Young Antiracists by Tinashe Williamson spotlights the important topic of racism. Through ten chapters and ten fictional characters Williamson answers questions about what racism really is, why representation is important and what you can do if someone is discriminated against because of the colour of their skin.

Racism is a complicated topic for grown-ups to navigate, and many find it hard to talk to their children about it. For what can you say? Where do you begin?

This is the perfect book on the topic for children 9 years and up, and it works just as well at home as in a teaching situation.

The book is illustrated by Thea Jacobsen.

Ten Incredible Inventions (Ti utrulege oppfinninger)

Illustrated non-fiction | Samlaget | 2020 | 64 pages

What do the atomic bomb, the pill and the like button have in common? That's right, they all changed the world around them. Just like the lightbulb, the clay pot cooler, antibiotics, the dishwasher, autotune, prostheses and the bulletproof material Kevlar.

Through these stories we are given insights into how inventions are made, how ideas come to be and how these inventions can affect our lives.

Ten Incredible Inventions is an entertaining and educational non-fiction book, illustrated throughout by the awarded Rune Markhus.

Andreas Tjernshaugen

The Blue Whale – The Incredible Story of the Biggest Animal that has Ever Lived (Blåhvalen. Den utrolige historien om det største dyret som noen gang har levd.)

Nature and popular science | Kagge Forlag | 2020 | 88 pages

Did you know that the blue whale is the largest animal that has ever existed? That it is even bigger than the biggest dinosaurs? And that long ago, the whales had four legs and lived on land? In *The Blue Whale* Andreas Tjernshaugen takes you into the sea. You can read about the life of the blue whale – what it eats, where it swims and how it breathes through a nose that is at the top of its head. You also get to know how the blue whales have become so big and how we humans almost (but fortunately only almost) exterminated all the blue whales in the world.

The book is illustrated by Line Renslebråten.
