A historical page-turner inspired by actual events. Three men. A dizzying goal. A desperate journey through Norway. In 1767, Maximilian Hell, imperial court astronomer in Vienna, is given a surprising task: To travel as far north and east as it is possible to get in the known world to observe the passage of Venus. It's a 5,000 kilometre journey, under brutal conditions, to the most inhospitable place on Earth, Vardø in Norway, with one overriding goal in mind: to determine the Earth's distance from the sun. It is an expedition that will take several years, equipped with the most advanced technology of the time, followed with a keen eye by the planet's scientific elite, faced with unsolvable problems: logistics, isolation, internal contradictions and violent forces of nature. But Maximilian Hell has God on his side; and the not so successful Norwegian Jens Finne Borchgrevink as his personal guide.

'Simply put a very good novel.'

Unn Eide is in her thirties and leads a solitary existence. She recently returned to work after a string of scandals at the hospital's outpatient clinic where she worked as a psychologist. Given another chance, Unn has been asked to be the superuser for the AI therapist Gro, who offers digital counselling sessions. Cutting edge technology, with the purpose of streamlining services for ailing patients.

During superuser training, Unn meets Torjus, a doctor who, like Unn, has been reassigned after a video went viral of him fighting in a wrestling ring in a full doctor's costume. His alter ego is Dr. Dropdead. Both Unn and Torjus are captivated by the new technology, and, most importantly, by each other. But Torjus is already in a relationship.

Lacking connection with real people, Unn turns to Gro, who provides her with questionable advice. Is she starting to lose herself again? Where can she turn for support when the ground beneath her is shifting? And what happens when Unn becomes too attached to the artificial therapist?

Iggy

Iggy

Genre: Fiction

Category: Novel

Publisher: Gyldendal

Year: 2024

Pages: 203

ISBN: 9788205592247

English sample translation available

Edy, age 20: She marries a Frenchman and enters into a pact of mutual unfaithfulness. They travel to the south of France to live their artist dream. But then she becomes pregnant, and the idea of a child is impossible. The abortion becomes a part of their artist life.

Edy, age 30: She makes her literary debut and finds herself a 21-years-old lover. He wants to have a child, she hesitates. After a few years, the relationship breaks down and she is alone.

Edy, age 42: She has a small boy aged two and a girl growing in her belly. She is together with a German performance artist, and life is supposed to be an art piece, but this idea is threatened by trivialities.

Iggy is a novel of youthful courage and brittle illusions. About the fear of the conventional and the lust for exceedance. But also about the unsettling loneliness in the life of someone who never wants to commit.

We've no time to lose, we say to each other, time and time again, like a mantra.

Choosing not to keep Iggy has made the mantra even more important. Not choosing Iggy means choosing art, doesn't it?

Marina Abramović has taken three abortions. She claims that having children makes women lag behind in the art world. That you have to be conscious of what you prioritize to spend your energy on. It won't be on me now, I think, stroking my flat belly.

Genre: Fiction
Category: Novel

Pages: 175
ISBN: 9788205599130
English sample translation available

What is a woman to do after being left by her partner in her late middle age? The first spring spent alone, she thinks of nature as beauty wasted on a dead soul, and stays alive out of sheer politeness. She can't bear the idea of spending the rest of her life without someone to curl up to. She makes dating profiles on several apps, the only remaining arena for meeting people in the time of the pandemic. At the same time, she flinches at the thought of going to bed with an unknown, imperfect body, to showcase her own decline and expose herself to a stranger.

'What especially interests me (...), is how steadfastly she processes and explores the great missteps of life, using the full register of the body to do so; the analytical thoughts, the quivering, horrible feelings and the invigorating lust for life.'

Vårt Land

'Spry and philosophical about becoming single as a mature woman and throw oneself into the waters of online dating.'

Adresseavisen

'This is a deeply existential novel about being an older, abandoned, longing woman. The book is raw, frisky, and rebellious. And, the way I read it, wistful.'

Niels Fredrik Dahl

Walking Man

Fars rygg

Genre: Fiction
Category: Novel
Publisher: Oktober
Year: 2023
Pages: 352
ISBN: 9788249521579
English sample translation available

Taking old documents, letters and photos as his starting point, the narrator tries to piece together the story of his late father's childhood. It is an extraordinary, but cold childhood, marked by loneliness, dreams and yearning: In Egypt, where the boy's father, The Judge, keeps his wife and young son in a colonial iron grip; in the home of strangers in an Oslo suburb; at a boarding school in Geneva, and in hotel rooms up and down through Europe, as the continent is heading for another great war.

Tender, dark and at the same time full of humour, *Walking Man* is an unforgettable portrait of a boy and a young man's struggle to live in a world he doesn't understand, but still tries to be a part of, of the people around him, and of the fateful time he grew up in. It's also the story of the boy's mother, herself desperate and full of yearning.

Niels Fredrik Dahl has written a captivating novel about family and love in the 20th century, about a boy and a mother connected by loneliness, and about a loneliness passed down from one generation to the next.

Winner of the 2024 Nordic Council Literature Prize

'Intoxicating about loneliness and loss... The novel is one of the best, most poignant, soberest, most elegant, and touching I have read in a very long time... It's a story filled with longing but also devotion, glamour, and a curiosity for life.'

Dagbladet

'... the story of a child, and an adult, who never felt like he belonged. A beautiful novel about hereditary loneliness.'

NRK

'A kind of Narnia for adults, where the crystal-clear shifts between different timelines in the novel cut like a dip in icy fjord water ... How is a life created, and who have you become when everything is over?'

Svenska Dagbladet (Sweden)

The Other Mother

Den andre moren

Genre: Fiction
Category: Novel
Publisher: Oktober
Year: 2023
Pages: 321
ISBN: 9788249527045
English sample translation available

Silje Marie is married to Helene. Together, they have two sons named Olav and Henry. When Helene and the children go on vacation, Silje Marie remains in the family's house, a home that is temporarily being packed up and prepared for renovation. Here, it's as if she is not only left alone with the responsibility for the house and the belongings but also with the uncertainty about the choices she and Helene have made and the direction their lives will take. She is burdened by the forbidden thought that she feels a different attachment to her two children, having given birth to one but not the other. Most of all, she grapples with the feeling that she is living a double life, something she has lied about and kept hidden from Helene: the existence of another mother, with whom she interacts, and a son who resembles Henry.

The Other Mother is an acute and courageous account of a mother's crisis, a novel that intelligently and provocatively delves into societal questions concerning parenthood, biology, and queer lives.

'The Other Mother is an exceptionally powerful novel about the gap between what we think and what we feel, how we wish the world to be and how we experience it. ... It's a fantastic portrayal of a woman and a compelling relationship novel that fearlessly discusses the consequences of developments in biotechnology.'

Vårt Land

'With an exceptionally good novel, Tina Åmodt keeps us in suspense between self-fulfilling prophecies and the possibility of shaping reality... It's been a while since I encountered such an interesting, human, complex narrator as the main character in Tina Åmodt's novel The Other Mother... a curious and honest exploration of historically quite new experiences associated with specifically queer lives, while also being deeply universal'

Morgenbladet

It is summer on Mulen, the island at the edge of the sea where Ingeborg lives with her parents and younger siblings. In the small island community, life goes on just as it always has. The outside world seems distant, but the modern world is knocking on their door, threatening what is safe and familiar. Ingeborg cannot reconcile herself to the idea of living here for the rest of her life. Everything seems predetermined. She longs beyond the shallows, where the waves break around the island. But there is another longing in Ingeborg. In everything she does, she yearns for the green house on the other side of the island where Olaug, who has just become a widow, lives. Olaug with the black hair and strong arms. Olaug who hunts for seal and eagles. What is it about Olaug that is so different, that makes Ingeborg feel both confined and liberated?

Beyond the shallows is a close and sensory portrait of a young girl in the 60s, a time of transition, where both she and the society around her are undergoing significant changes.
